Member Highlight of the Month

Marin Bocce Federation

It was the early 90's, and local parks were underutilized. A master plan was developed in 1992 to revitalize San Rafael's Albert Park with a focus on increasing activity in the park, and involving the community and private sector in the park development. With support from Mayor Al Boro and the City Council, and with a grant from the city, a beautiful 6-court facility was planned.

The courts are a continuing success story, and the Marin Bocce Federation has played a big role in bringing life back to Albert Park, and in helping to restore this valuable community resource.

The interior space of the facility was recently remodeled to include an additional bathroom, a meeting room and a larger office. The Rose Garden is available for weddings and private event rental. Today, 18 years after Marin Bocce opened its doors, the facility has eight exterior courts, two indoor courts, 155 teams and close to 1200 players.
